DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following species which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single species to which the claims must be restricted.

The species are as follows:

- 1) Dendritic cells from skin, spleen, bone marrow, thymus, lymph nodes, umbilical cord blood, or peripheral blood.
- 2) The dendritic cell maturation agent Bacillus Calmette-Guerin (BCG), interferon γ (IFN γ), lipopolysaccharide (LPS), tumor necrosis factor α (TNF α), an imidazoquinoline compound, a synthetic double stranded polyribonucleotide, a agonist of a Toll-like receptor (TLR), a sequence of nucleic acids containing unmethylated CpG motifs, or any combination thereof.
- 3) Co-stimulatory molecules CD80, CD86 and/or CD54.

The species do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- 1) The species skin, spleen, bone marrow, thymus, lymph nodes, umbilical cord blood, or peripheral blood are different organs, which do not share the same properties.

Art Unit: 1642

2) The species *Bacillus Calmette-Guerin* (BCG), interferon γ (IFN γ), lipopolysaccharide (LPS), tumor necrosis factor α (TNF α), an imidazoquinoline compound, a synthetic double stranded polyribonucleotide, a agonist of a Toll-like receptor (TLR), a sequence of nucleic acids containing unmethylated CpG motifs do not share the same structure and properties.

3) The species CD80, CD86 and/or CD54 do share the same structure and properties.

Accordingly, the species are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of species to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
